Create Service Cost Function
In my existing Bank Loan Application Form app, help me explore AI-assisted features and built-in analytics. Create a report or chart that summarizes loan applications by Loan Type and shows the number of applications in each category. Use my existing form and fields. Do not create a new application or modify existing workflows. Show me the proposed changes before applying them.
Create Loan Applications Report
Created the "Loan Applications by Type" summary report for the Build Loan Application form. The report groups applications by Loan Type, displays record counts, and includes quick filters and detailed views with applicant information.
Try instructing Zia to 'Create a form to collect customer details'
Review and verify AI-generated responses before proceeding.
